

CLIMATHON

POWERED BY WHAT THE HACK

An online event across Ireland to improve consumption and sustainability on campus

HOW TO GET INVOLVED

STEP 1 -- GATHER A TEAM FROM YOUR CAMPUS

Could be your friends! Could be strangers!

Gather together people you can work with, people with a variety of skills, and people who want to change the world! Don't worry, if you can't find a team sign up and we'll partner you with an equally awesome group of people!

STEP 2 -- CHOOSE A PROBLEM STATEMENT

We have a list of areas to choose from or bring your own!

There are a variety of ways that you can change the world. We have collected a few starter ideas that you can use. if you have an idea of your own we welcome your creativity! Just be sure that it fits the criteria :)

STEP 3 -- ATTEND THE EVENT

It's virtual so there's no need to go anywhere!

The event will take place over 2 1/2 days entirely online. You can join from anywhere, wear anything, and adapt to your schedule. Just note that if you want to present your solution to the judges you must have team members in attendance throughout the event.

STEP 4 -- PITCH YOUR SOLUTION TO WIN!

The team with the best solution wins!

The event concludes with final pitches to a panel of expert judges. The winning team(s) will have the opportunity to present their findings at the Climate Tous Ensemble conference and implement their solutions on campus.
